

# COLOR STORY indigo

Peaceful, comforting and orderly. That's how many describe their favorite color: blue. The richest of them all, indigo blue, invites a deep sense of tranquility. The same shade as clear skies at nightfall, indigo captures our imagination.

This season, we've reimagined indigo in every space. From the living room to the bedroom, from the tabletop to the floor, we'll show you how easy it is to decorate with our favorite blue and create a soothing scene this year.
